Update 26 Jan 2022: Rugby 22 added to 3rd place. The most realistic FPV simulator on the market! Let's pilot the virtual immersive drone and race with many. FPV is a new term for aviation. Its purpose is to provide the user with a more realistic live flight experience by being able to control an

unmanned aerial vehicle (UAV) using the screen of a smartphone or tablet that controls the movement of the drone. Unlike traditional drones, FPV drones do not have stabilization systems. Instead, the drones are equipped with a data transmission system that transmits the video taken from the drone's camera to the user's devices.
